Testimonials

“ I feel so grateful that Edmonds Community College gave me a second chance to study in the U.S. With the help of WholeRen, I have learnt how to adapt to American education and culture while I studied in Edmonds Community College.”

— Student GL

“ One of our fall quarter WholeRen students was re-admitted to her previous university. This system appears to be positive for many of these students...In short, these second opportunities for WholeRen students seem to be working well...as it can really be a great way to get back on track for the right students. ”
